

Terry, I am sorry I will not be able to make it out for the Public Testimony on the Bureau of Personnel. I did however want to drop you a short email about my dealings with the BOP and the successful partnership we have had with them.

We first became involved in working with the BOP to assist them with recoveries from parties who have been responsible for the injuries to state employees or there family members covered under the state health plan. When someone else is responsible for these injuries we pursue the subrogation, other insurances sources, other recovery sources, etc to reimburse the state health plan, occasionally the state work comp plan and the employees for any payments or costs that they have paid in which the other party is responsible.

The BOP has been a great partner in assisting us with the implementation of this program and the overwhelming success we have had since our involvement. In a little over 5 years we have recovered over \$1,718,500 for the various state plans they oversee that we work on.

I hope that you are able to share this with the Committee and would be more then willing to answer any questions or respond to any feedback should there be any. Thanks for the inquiry and the opportunity to share this information with you.
